Circular Letter #8.

To Supervisors of Schools, and
High school Principals

Ladies and Gentlemen:

COLLEGE ENGLISH

In the past, few schools have offered College English. The Department feels taht more attention should be given to this course especially by the larger high schools. The books for this course are available and may be obtained from the Department. Each principal will requisition the number of books he will need for this course. Every student should have every book mentioned in the Course of Study.

Yours very truly,

Commissioner of Education
